

# The Alteryg Freedom Power™ System Fuel Supply & Storage Solution

Alteryg Freedom Power fuel cell power systems supply and store fuel at the point of use. The Alteryg Fuel Supply & Storage Solution is the first to be cost competitive with existing fuel storage approaches as a result of several differentiating features:

- High pressure composite tanks for hydrogen storage;
- 8-48 hours and beyond of extended runtime...easily meets FCC backup power requirements;
- Refillable on-site... hydrogen fueling via a standard pickup truck;
- Collaboration with major hydrogen suppliers;
- Highly durable components and cabinets...superior service life and corrosion resistant materials;
- Compact, small footprint and lightweight composition ideal for rooftop installations.
